

Digital manifold

testo 570s - the digital manifold with 4-way valve block, Bluetooth and large data memory

Long-term measurement with intelligent error analysis in the testo Smart App

World's longest battery life of up to 360 hours with rechargeable battery (USB-C) and batteries

All measurement data at a glance and graphical progress display thanks to large display

High durability with IP54 protection class

Wireless measurement of temperature, vacuum and current by automatic connection of the Bluetooth probes

Suitable for use with A2L refrigerant (in compliance with relevant legislation)

With the new testo 570s, we are opening up the future of intelligent long-term measurement on refrigeration and air conditioning systems as well as heat pumps. Digital fault analysis in the testo Smart App allows anomalies to be detected quickly and reliably. And with the world's longest runtime of up to 360 hours and large data memory, testo 570s is ideal for long-term measurements. Behind it is the hybrid system of rechargeable battery (USB-C) and 3 batteries.

The large screen of the testo 570s provides a quick overview of all measured values as well as a graphical progress display. For uncomplicated measurement of temperature, vacuum and current, all probes automatically connect to the manifold via Bluetooth. To make measurement even easier, stored programs guide you through the measurement process and enable automatic determination of numerous plant parameters. The subsequent documentation and sending of data is also possible with just a few clicks in the testo Smart App.

Thanks to high robustness with protection class IP54, testo 570s continuously delivers high performance even under the most difficult conditions.

The testo Smart App

- For all applications of the testo 570s from measurement to documentation
- Remote operation of the measuring instrument or use as second screen
- Quick evaluation with all results at a glance, tabular view and graphical progress display
- · Guided menus for all measuring tasks
- Create digital measurement reports including photos as PDF/CSV files on site and email them straight away
- Compatible with all Bluetooth®-enabled Testo measuring instruments for air conditioning/refrigeration systems and heat pumps
