

**The new online data
logger system
testo 160**

testo Saveris
Cloud

Target groups and applications

Food

(Production, processing, storage, retail)

Facility management, industry

(Production, storage, HVAC systems, IAQ, R&D, data centers)

Pharmaceuticals, healthcare

(Production, storage)

Others, e.g. museums, archives, public sector

(Exhibition, storage, IAQ)

The background is a light blue gradient. On the left side, there are several overlapping squares of varying sizes and opacities in shades of light blue and white. A small, dark blue triangle is visible in the top-left corner.

Needs and challenges

Ongoing and
increasing cost and
time pressure

Documentation
requirements

Lack of expertise and
qualified personnel

Key visual

The advertisement features a man in a white lab coat holding a tablet and a woman in a white chef's coat holding a smartphone, standing in a pharmacy and a grocery store respectively. In the foreground, three testo climate monitoring devices are displayed: a large indoor unit with a digital display showing 7.15 and 4.15, a small outdoor unit, and a small indoor unit. A 'testo SMART' logo and a 'NEU!' (New!) badge are also visible.

Intelligently networked. 100% control.

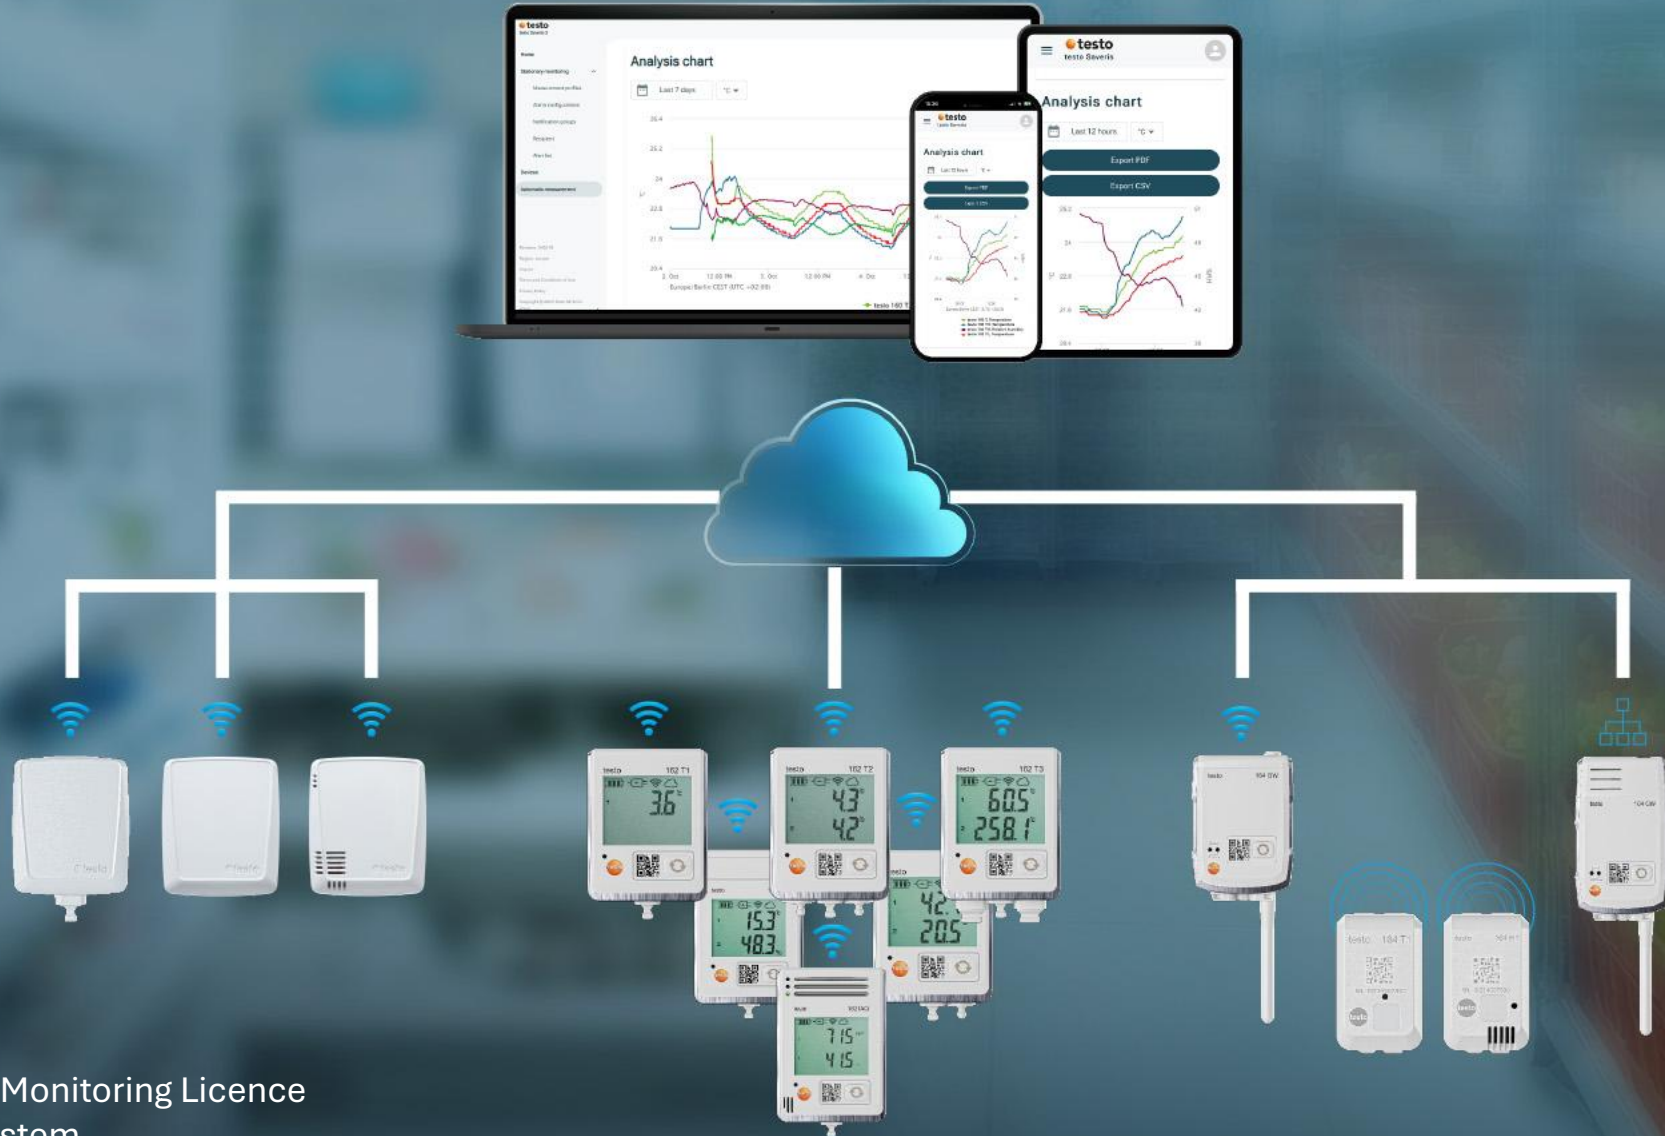

The new testo 160, testo 162 and testo 164 online data loggers for intelligent climate monitoring:

Monitoring, alerting and documentation – anytime and anywhere.

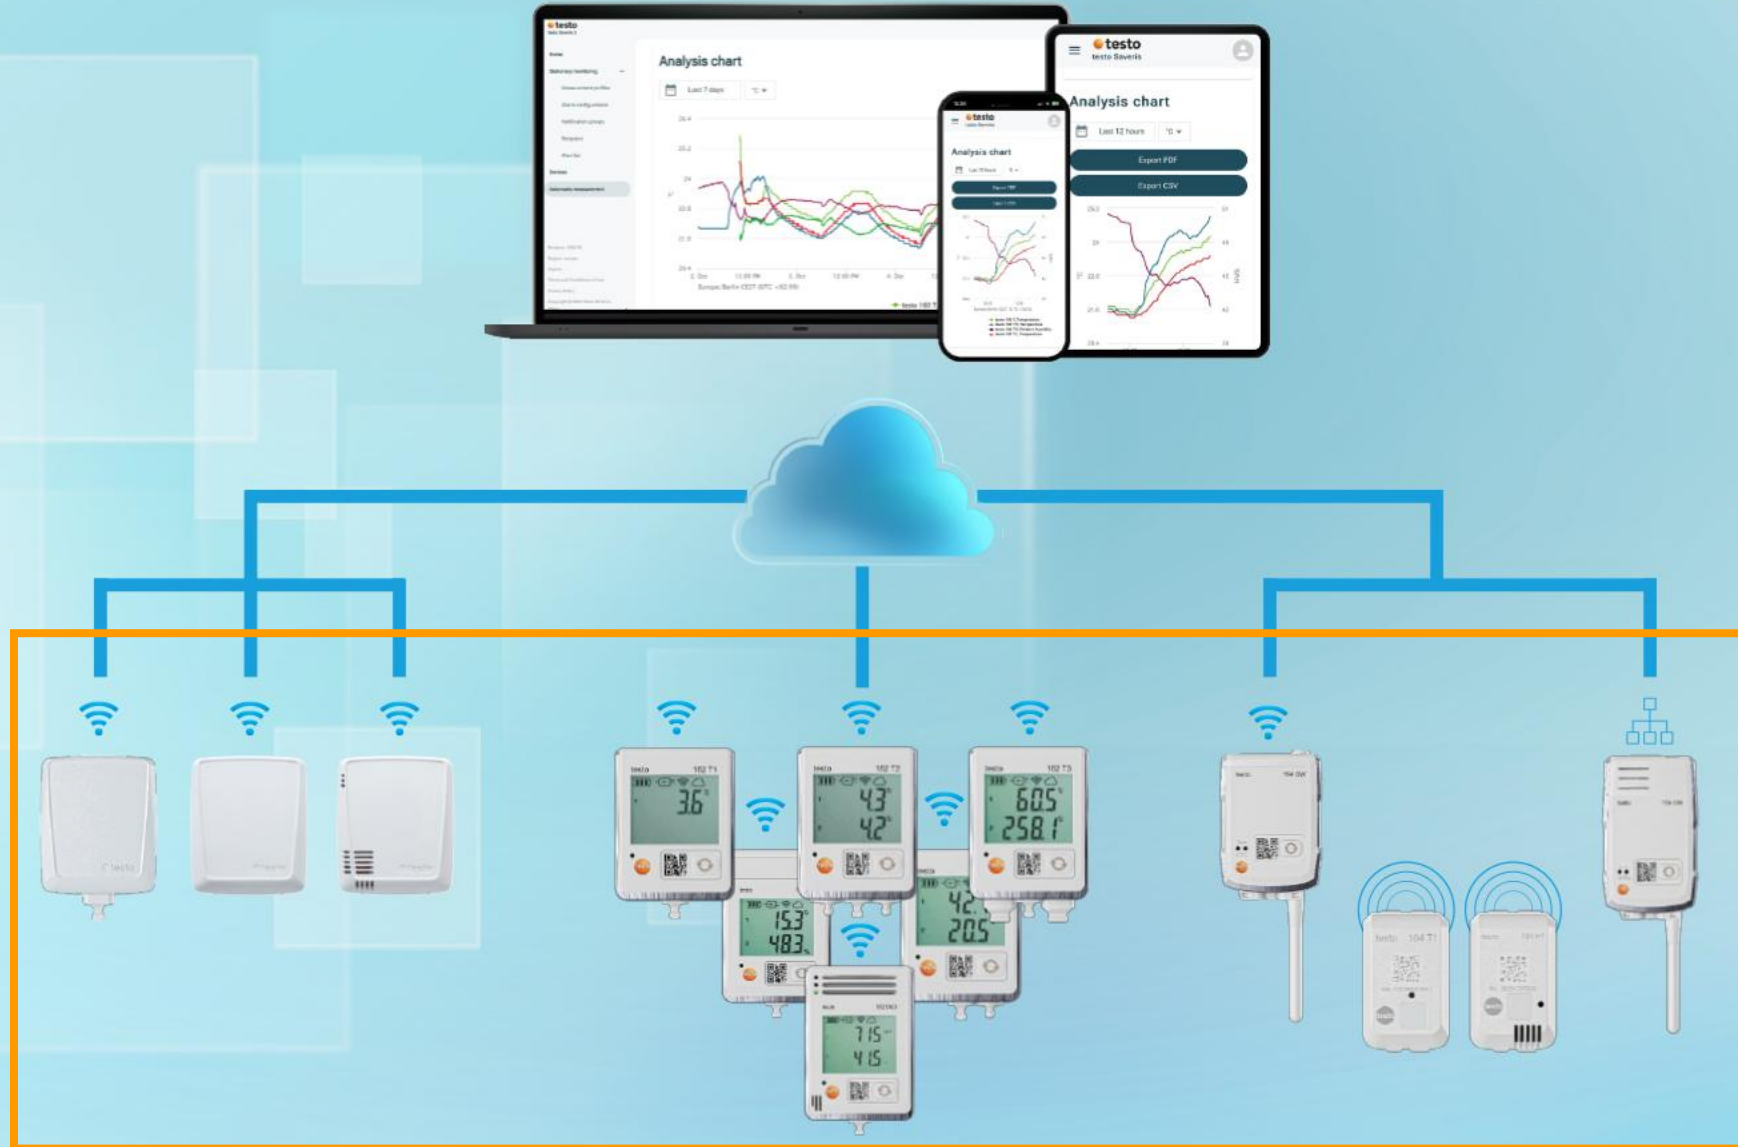

System overview

System overview

The payable Testo Data Monitoring Licence is required to use the system.

Hardware

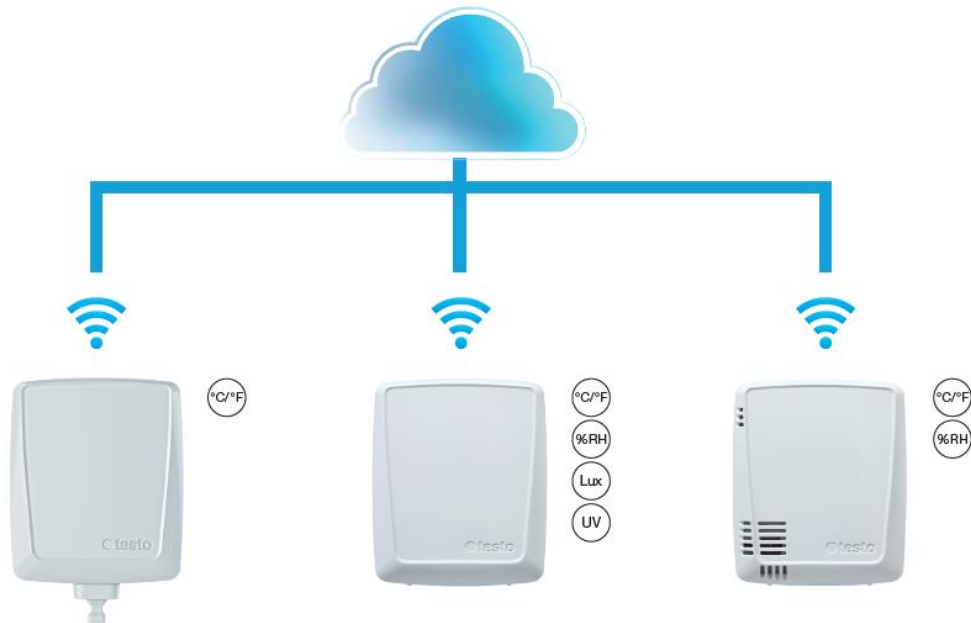

The right data logger for every
application – hardware

testo 160

- Automated monitoring of temperature, air humidity, lux and UV
- Low costs

testo 160

Main advantages

- Unobtrusive design
- Low-cost online data loggers
- Lux and UV measurement with external sensors

Useful for applications with:

- Few measuring points

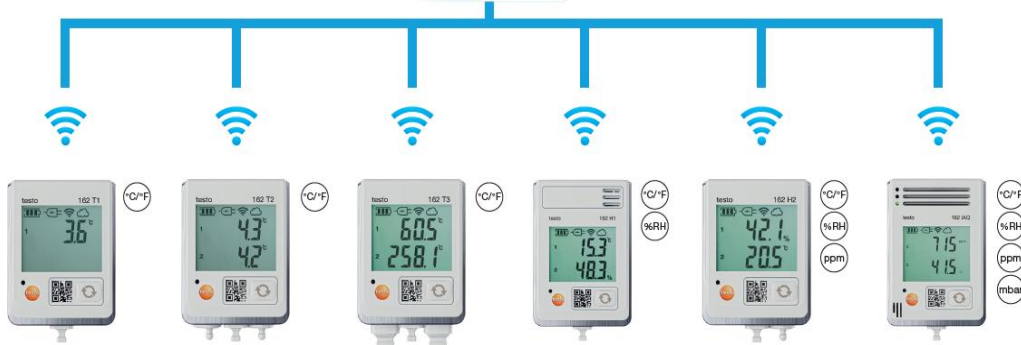

testo 162

- Automated monitoring of temperature, air humidity, pressure and CO₂
- Established all-rounder

testo 162

Main advantages

- Connection options for external probes
- Display for checking the measured values

Useful for applications with:

- Few measuring points

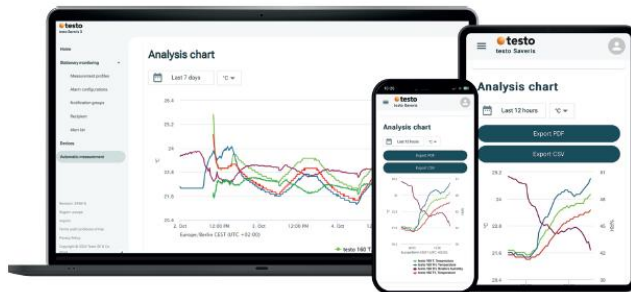

testo 164

- Automated temperature and humidity monitoring
- Independent of the WiFi infrastructure

testo 164

Main advantages

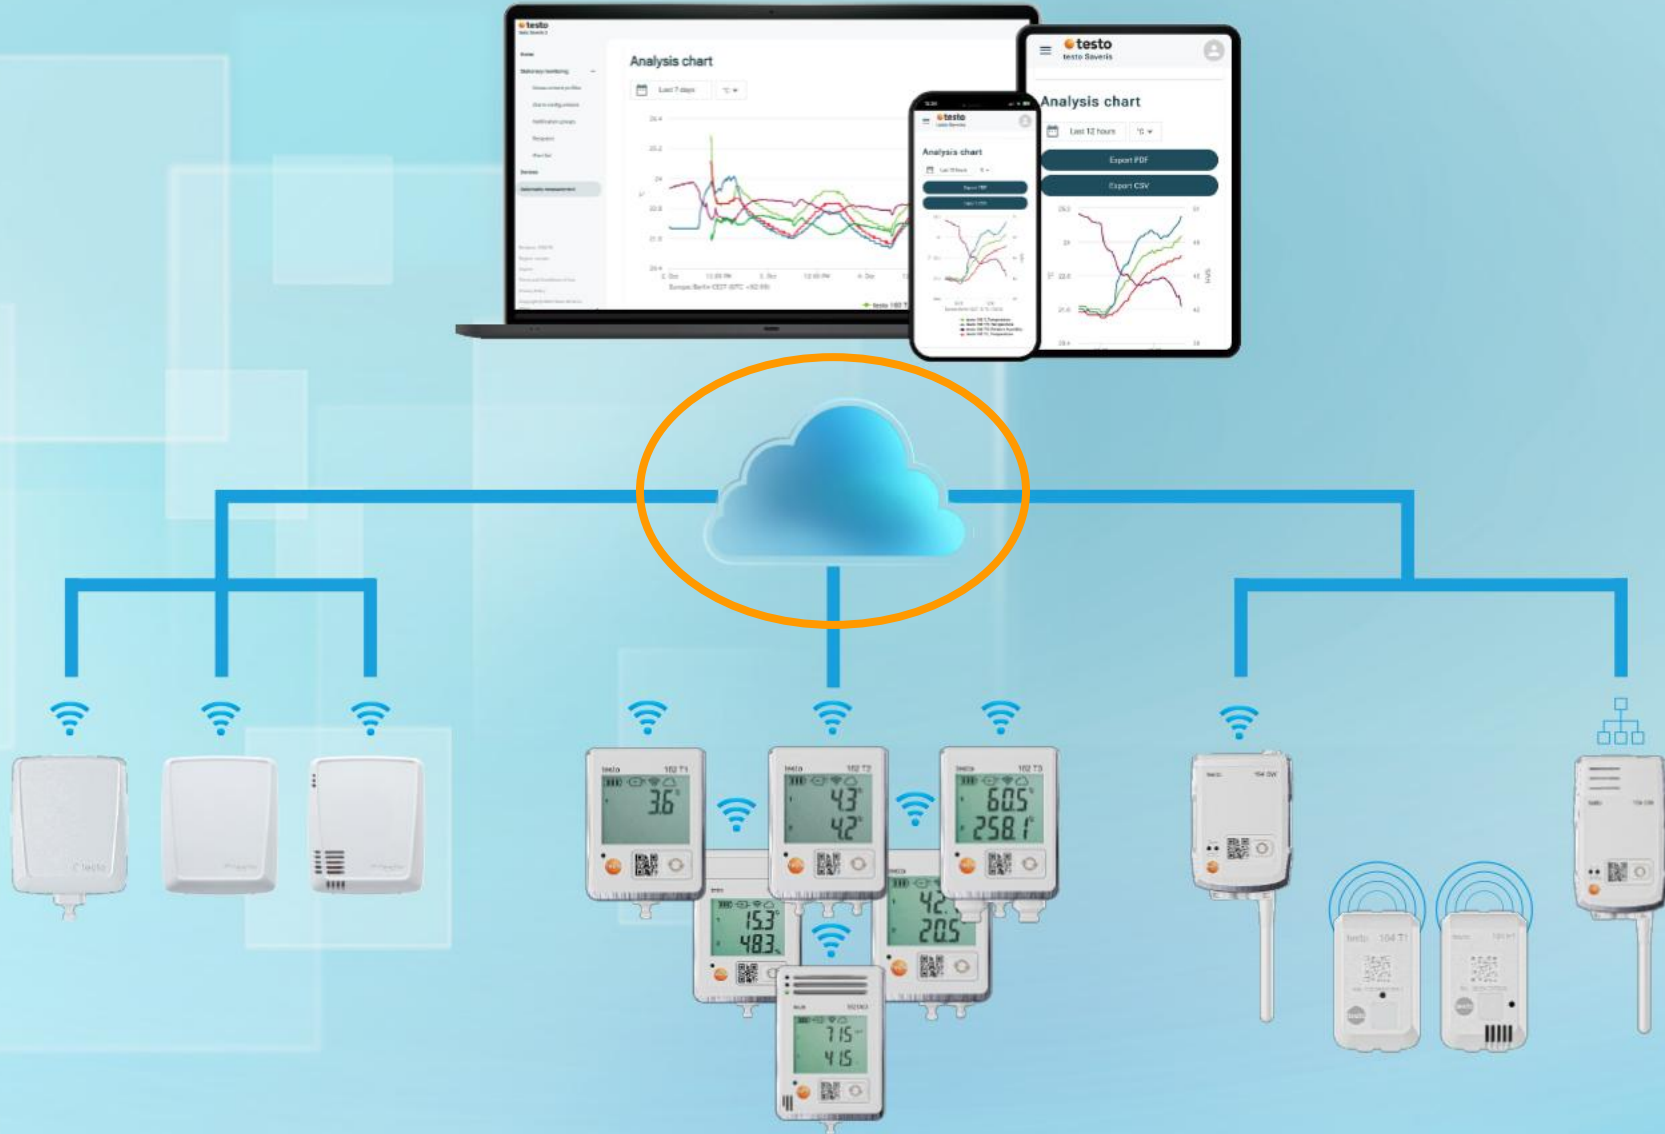

- Independent of WiFi infrastructure
- Mini, unobtrusive design
- 8 years battery life
- Simple pairing of logger and Gateway (one touch of a button)

Useful for applications with:

- Many measuring points
- Larger projects
- High network security standards

testo Saveris Cloud

Automated measured value monitoring thanks to Cloud connection

testo Saveris
Cloud

The central operating element for the monitoring and administration of all measurement locations

Automatic transmission and documentation of measured values, alerting in the event of limit value violations

All measurement values accessible everywhere and at all times:

Modern, user-friendly UI + dashboard

The latest security standards

Connection to the testo Smart App for more smart advantages

testo Smart App

100 % control.
Almost 0 % effort.

Connection of the testo Smart App
to the testo Saveris Cloud

Permanent alerting via push/mail

Simple commissioning of the online data logger

Dashboard & data of the testo Saveris Cloud

Testo account

Your benefits:

- ✓ Perfect online data logger **for every application**/ selection from every product family & **combination** in a Cloud account
- ✓ Focus on **quality, safety and accuracy**
- ✓ The products in the of testo 160 online data logger system not only increase **product quality** but also **process quality**
- ✓ Reliable **after-sales services**: Measuring instrument manufacturer and calibration expert in one
- ✓ **Testo** as a leading manufacturer and partner
